DETTOX WITH A DIFFERENCE

At Atlanta Center for Mental Health and Atlanta Detox Center, our multidisciplinary approach to recovery sets us apart from the rest.

Our facilities address the physical, mental and emotional factors during detox by providing premier treatment through a personalized plan of action.

Our team of licensed professional therapists, behavioral health technicians, and a 24/7 nursing staff work with you to make sure your individual needs are met.

Together we can help you start building a brighter future in recovery.

We know there isn’t only one path to recovery

AMATUS RECOVERY CENTERS
**OUR MISSION**

Our individual addictions, mental health conditions and traumas might be unique to us, but they do not define us.

We do not apply cookie-cutter treatments. With the prominence of dual diagnosis, receiving personalized care is more important than ever.

We create personalized action plans and use multidisciplinary techniques to give the structure you need to find a place of peace and build a brighter future.

**WHAT WE PROVIDE**

**THERAPIES**

During detox at our facility, you can choose from a variety of healing treatments including:

- Cognitive Behavioral Therapy
- Daily Group & Individual Therapy Sessions
- Medication Evaluation and Stabilization
- GeneSight Testing
- Voices of Recovery: Stories of Hope from Peers in Recovery
- Chiropractic Therapy

**AMENITIES**

Our facility is located just south of Atlanta, only minutes away from Hartsfield-Jackson Atlanta International Airport. Facility amenities include:

- Wellness & Exercise Areas
- Biofeedback Room
- Lunch Room and Full-Service Kitchen
- Semi-Private Bedrooms
- Movie Theater

**MENTAL HEALTH RESIDENTIAL**

We offer residential care to people experiencing a mental health crisis. The residential setting of our facility allows us to provide around the clock care, crisis intervention, medication evaluation and an intensive therapy track to help guide you towards healing.

Self-medication with alcohol and drugs is not uncommon for someone with a mental health disorder diagnosis. Our facility is equipped to provide medical detoxification to treat acute withdrawal and provide you with the safety you need in order to start treatment.
